153 CARY/CRUCHLEY. 4 sheets [13,14,20,21]

1850c

INTAGLIO.

County map produced from G & J Cary's Improved Map of E & W. April 1822. Sheet 21 shows 'The Intended Rail Road' of Canterbury to Whitstable [opened 1830] which line was only authorised in 1825 so casts doubt on the date 1822. Sheets 20-21 (DW coll) dated April 2nd 1832 [but probably c1847-] as Railways 1-8, A-B, appear on this copy. There was probably another intaglio issue as there is a map with the TW/ Robertsbridge line (opened 1851) shown Cary style [dls with jagged tooth pattern].

It was later published by GF Cruchley as 'Cruchleys Reduced Ordnance Map of E & W' also in single sheets under the title of 'A New Topographical Map of the Environs of...' using one or more of sheets 13,14,20,21. Additionally a issue titled 'Cruchley's Complete Railway & Station Map of England & Wales with part of Scotland' c1881-2. These sheets are updated both by addition and deletion. Cruchley normally used simple dls on the plates and solid black lines on the lithographs for rail lines, but the 1881-2 issue is an exception it has no solid black lines. Sheets 20 & 21 comprise approximately 90% of the county and as such, under Cruchley and Gall & Inglis are frequently used as a Map of Kent alone.
